Founded in 1914, our parent organization, USPS, is a private nonprofit, non-governmental, and non-military association of pleasure boaters, both motor and sail. Boat ownership is not a requirement for membership. Nationwide, USPS enrolls about 50,000 members, making it the largest private association of boaters in the world. National headquarters are at Raleigh, N.C. Our 450 squadrons are organized into geographic districts throughout the 50 states and overseas. The Waterloo Sail and Power Squadron belongs to District 30, which includes Iowa, Missouri, Kansas, Oklahoma and Colorado.

Social and Organizational Activities:

Dinner meetings - During the off-season, from September through May, Waterloo Sail & Power Squadron members meet once a month to dine together in an area restaurant or park, to hear a speaker or watch a program of nautical interest, and to enjoy each other's company. It's a family event that keeps us going until the ice thaws. Generally these meetings are held on the third Saturday of the month and details are presented in the Charley Noble.

Hosting District Conferences:

District 30 Conferences are held twice yearly in the fall and in the spring. Each of the nine squadrons in the district takes a turn at hosting these conferences.

Special Trips :

When there is enough interest, the Waterloo Sail & Power Squadron may coordinate trips by bus or caravan to out-of-state boat shows or other trips to destinations to enjoy a play or special concert.
